

Dear Human Services Provider;

The North Country Council of Social Agencies is providing a free, downloadable matrix brochure which lists local agencies along with the services they provide in a grid format. This is a listing of member and non-member organizations, and is provided our organization as a service project for our community. We need all member agencies, as well as agencies who would like to publicize their services, to update their information. There is no fee for this.

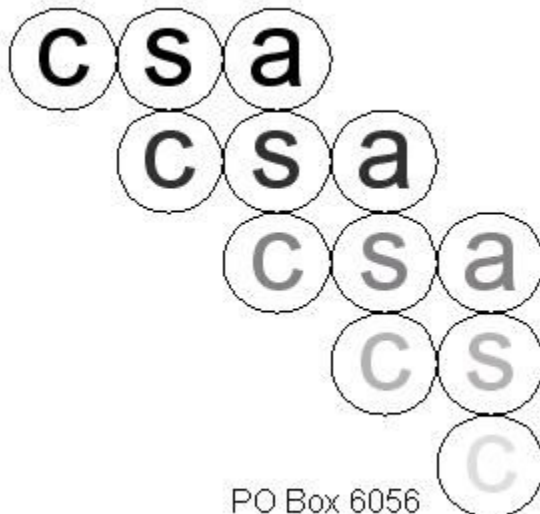

Please review the list of services on the reverse page and check off those appropriate to your agency. We also ask that you complete the agency information requested to insure proper representation in the brochure.

If you have not been a member of the North Country Council of Social Agencies but are interested in membership with this organization that provides linkages to other services in Northern New York, please find the membership registration form on our website, fill it out and send it in with the appropriate level of dues.

If there have been changes to your service activities or contact information, please take a few moments to provide us with the most current information now and FAX it to Melinda Gault at 788-8251 (CAPC). These items are often set aside for completion at a later time. However, we need to receive your response as soon as possible! It is our goal to keep this matrix brochure of services updated on a monthly basis so that it can truly be a great resource to our community.

THANK YOU FOR YOUR PROMPT ATTENTION !!!
